

RULES AND RIGHTS VIOLATION

SLIP

A Slip is warranted when a client repeats a violation after three warnings or when the violation is determined to warrant a slip, as in the case of placing staff or residents in danger or damages to property, physical health or emotional health of others. For simple violations a client should be given three verbal warnings prior to a written warning, with directions and support to raise the clients' awareness and to avoid further violations. Written warnings, (SLIP or Awareness Notice) may come with a consequence that may include but are not limited to; a written essay, extra work detail, return to blackout or a combination. The Primary Counselor and/or Supervisor must be consulted prior to awareness notice or Slip being given. Awareness Notice will include the Rules sheet with rule violated and any other information of the event and will include the clients signature and signature of witness or witnesses.

Name of Client, _____, receiving slip.

Rule # 's or Personal Rights violated, _____.

List Numbers or See attached

I understand that three slips will result in my being discharged from treatment at West Slope Recovery.

Consequences:
